Twenty-two students participated in the camp which provided an overview of the healthcare system, direct observation, and information on skills and career options. Students visited Triton, the Franklin Park Fire Department, Northwestern Hospital and Loyola Hospital. Additional experiences, such as shadowing, can be set up for interested students. Oak Park and River Forest student Bianca Mueller and Elmwood Park student John Tran shared highlights of their experiences. The number of participants is limited largely by the group size that the visited facilities will allow. Ms. Schmidt reported that 19 students and 21 teachers participated in the June 2009 program which focused on the three specific areas of hospitality, technology, and transportation/logistics. An overview of activities was provided. This year's program information and application were posted on-line and limited response was received. Therefore Ms. Schmidt recommended that next year we return to distributing the information in printed form. Several students who were signed up did not show. Teachers' projects are being posted on DVR's web site. A

recommendation was made that next year's coordinators review this year's evaluations as they develop the June 2010 program.

Dr. Cothran reported that, although DVR's grant budgets have been approved, there may be a significant delay in issuance of payment vouchers. She presented the Board with a list of potential purchases. DVR has approximately \$130,000 in cash and is not in a position to pay on invoices. Each district may be in a different position to purchase at this time and wait for reimbursement. DVR has not proceeded with purchasing the AutoDesk Design Academy software renewal for the districts. Dr. Robbins stated that her district will proceed with needed expenditures with the understanding that there may be a delay in payment. Mr. Binder stated that his district has ordered some equipment but will not do additional purchases at this time. #### **ITEM XI – RCDT AND DUNS NUMBERS**

With the change in fiscal agent for DVR, the RCDT (Region-County-District-Type) code is being modified for fiscal reporting and compliance purposes. To pursue Federal dollars, DVR will need its own DUNS (Data Universal Numbering System) code. DVR is in the process of applying for these numbers.

#### **ITEM XII – NATIONAL SCIENCE FOUNDATION GRANT OPPORTUNITIES**

Dr. Cothran is exploring additional funding opportunities for DVR. She provided the Board with potential grants through the NSF. Planning meetings are needed so that DVR will be in a position to apply for these grants. She requested the Board's approval to proceed with

establishing a project team and holding planning meetings. The project team needs to include representatives from each district and can include elementary districts. The Board agreed that Dr. Cothran should proceed with planning meetings.

### **ITEM XIII – LABOR MARKET DATA**

Dr. Cothran provided the Board with labor market information. She developed and presented a draft of an informational flier containing information on occupations and salary ranges based on education and work experience. This information can be utilized in evaluating the expansion or lack of expansion of the programs our schools are offering. The Board requested that Dr. Cothran develop informational fliers for each of the other cluster areas as well, and that she present this information at their schools to counselors, parents, and other concerned groups. Fliers can be made available in electronic form.

### **ITEM XIV – STATE SEQUENCES**

Dr. Cothran reported on the ISBE's action, beginning in 2006, to realign CTE course sequences. For example, schools offering Web Design were including these courses in existing approved Business Education or Industrial Technology programs. However, Web Design now its own program CIP, and therefore Web Design courses should no longer be listed under other program CIPs. This affects how we are required to track students and affects performance data. In regard to ineligible credits, juniors and seniors taking courses in multiple program areas can only be claimed for credit in one training level CIP, and freshmen and sophomores cannot be claimed for credit in training level courses. Dr. Cothran is reviewing each district's course sequences and is scheduling individual meetings with district representatives. She will meet with ISBE representatives on September 1<sup>st</sup> to agree on appropriate updates. It is important that these changes be made at this time so schools can reflect the information as they revise their course offering guides this fall. Dr. Robbins moved, Dr. Bonnette seconded the motion for Dr. Cothran to proceed with the initial adjustments necessary for alignment and compliance, and negotiate with ISBE for approval of the changes. All ayes; motion carried.

### **ITEM XV – PROGRAMS OF STUDY**

Dr. Cothran reported that each EFE region must engage in a Programs of Study Self-Assessment. At the direction of ICCB, all regions are to select a single program for the self-assessment and to go through the process. Riverside-Brookfield's Radio/TV sequence has been selected for DVR as a pilot for this year. Groups/persons to be included in the assessment process will be the Administrative Council, program committees, college representatives, and business partners. ICCB will provide additional direction on using the self-assessment in the future. Mr. Binder moved, Dr. Lupo seconded the motion to include the aforementioned persons in the self-assessment process. All ayes; motion carried.

### **ITEM XVI – SCHOOL/COLLEGE PARTNERSHIP WORKSHOP**

A tentative agenda for the October 1-2 workshop has been developed by presenters Meg Ormiston and Rich Voltz. Ms. Schmidt reported that the workshop will include the presentation of four Partnership Awards, a time for colleagues to network, and presenters will prepare questions in advance for the student panel. Districts are not limited in the number of participants they may send to the workshop. Ms. Schmidt requested that, by September 1<sup>st</sup>, Board members

provide the DVR office with a list of potential attendees so that a “save the date” card can be sent to each person. Last year’s list of attendees was provided as a point of reference.

#### **ITEM XVII – CLOSED SESSION**

Closed session was held following adjournment of open session.

#### **ITEM XVIII – OTHER**

Dr. Weninger distributed a letter he and Dr. Cothran have prepared for submission to ISBE as a means to make DVR’s presence known, as well as our interest in collaborating with ISBE on grant opportunities. The Board reviewed the letter and indicated approval with editing corrections.

Dr. Weninger requested that on all Board of Control agendas, action items be addressed first, followed by discussion items, followed by informational items. Items that include visiting presenters will be addressed first on the agenda.

As noted at the beginning of the meeting, all future agendas will include an informational memo and all related information. Board members are expected to review the information in advance of and preparation for the meeting. Board members are to receive the agenda and attachments by the Friday prior to each meeting. Agendas and attachments can be made available in both print and electronic formats.

Dr. Weninger requested that the School/College Partnership meeting follow the same format as the Board of Control in that all information is provided in written format prior to the meeting. He added that time limits need to be set. Meetings will be posted as: School/College Partnership 8:00 a.m.; Board of Control 9:00 a.m. or immediately following the SCP meeting.
