

Submitted By: Julia Wicklund

Strategy Name: Getting Your NCRC

Purpose/Objectives: Pursue a National Career Readiness Certification (NCRC) by completing the 3 parts of the Work Keys components which include Locating Information, Reading for Information, and Applied Mathematics

Materials Needed: KeyTrain Site License, Internet access, computers

Process: Students will research different careers using the link below to find out what scores are needed on each of the Work Keys tests to be ready for their career choices. They will then work on KeyTrain or the online Work Keys practice tests on a weekly basis. Teacher will track students' progress every other week to show student growth. Official tests will be administered at the end of the course term.

Practice tests link (if KeyTrain isn't available):

<http://www.act.org/certificate/earn.html>

Link to research what scores are needed for different careers:
