<p>Essential Questions:</p> <p><i>What thought provoking questions could students consider to foster inquiry, meaning making or transfer?</i></p> <ul style="list-style-type: none"> -What are the preschool curriculum areas? -How can I create developmentally appropriate lessons? 	<p>Key Understandings:</p> <p><i>What specifically do we want students to understand?</i></p> <p><i>What inferences should they make or realize?</i></p> <ul style="list-style-type: none"> -For students to understand preschooler curriculum -For students do understand how to select and plan developmentally appropriate lessons -Their conclusions will be fostered through observations of a preschool center

Early Childhood/Preschool, Unit 3 – Teaching Time

<p>Students will know: <i>What basic facts or concepts should students be able to recall?</i> -Preschool curriculum areas -Characteristics of each preschool curriculum area -Identifying developmentally appropriate curriculum -How to observe correctly</p>	<p>Students will be skilled at: -Reflection, writing, communicating, analyzing, understanding <i>What discrete skills and processes should students be able to use?</i> -Identifying characteristics of preschool curriculum areas -Writing and critiquing preschool lessons -Observing preschoolers and their lessons</p>
<p>Key Vocabulary: Common Language: Fine motor skills, story starters, illustrating, manipulative, direct learning, indirect learning, teachable moments, process-centered curriculum, objective, inquiry, content</p>	
<p>Evidence</p>	
<p>Formative Assessments: -Exit slips, critique <i>What qualities does this assessment exhibit?</i> -Checks the understanding of material -Allows for self-reflection on material</p>	
<p>Summative Assessments: -Observations in the preschool and students complete observation sheets -Creating lesson plan -Teaching time <i>How does this assess allow students to demonstrate understanding or meaning making through complex performance?</i> -These observation sheets are graded and allows for an application of material on preschooler development/curriculum -Lesson plans entail material learned related to preschool curriculum; students will perform critiques on their lesson plans as well -Students (in pairs) will be planning, creating, and making a lesson plan/activities/materials to teach in the preschool center</p>	
<p>Other Evidence: <i>What other evidence can we collect to determine if these goals are met?</i> -Progress on in-class assignments – daily checks with teacher to monitor progress</p>	
<p>Learning Plan</p>	
<p>Pre Assessment? Interventions? Progress Monitoring? -Monitor progress through weekly assignments (students receive points each day) Does the learning plan set out activities for acquisition, meaning and transfer of learning? -Students will apply information learned to preschool observations -Students will apply information learned in their teaching time experience How will teachers monitor progress towards acquisition? What are potential rough spots? How will students get feedback? -Provide verbal and written feedback on observations -Potential rough spots include students not going to observe during their observation slot; being absent during the planning process or their teaching time with their partner (will be difficult to make up work outside of class)</p>
