

Before we begin the next tutorial, it is important to understand why designers use specific colors on their sites.

[This website](#) gives you extensive information on “Color”.

Look through the “Color Symbolism” and “Color and Design” tabs while completing this online discussion post.

1. Explore the meanings of FOUR colors.
2. List the FOUR you chose and complete the following for each color:
 - a. explain the meaning of each color (in one or two sentences)
 - b. the important fact(s) that goes along with designing with the color
 - c. one thing you learned about this color that you didn't know before.
3. Remember, you are researching FOUR colors. Please complete #2's requirements for all FOUR colors.
4. Read the “Why Color Matters” section *under “Color and Design”
5. Answer: Why is it important for web designers to study color before their site is published?
6. Respond to a classmate's post

What you will be posting:

Your answers to #2, #5, and #6.
