EMPLOYABILITY SKILLS

Employers are concerned about more than a particular technical skill. They also want people with good employability skills, regardless of the job you are in. What are employability skills, you ask? “Essential employability skills are those general skills that are required to be successful in all sectors of the labor market and are separate from the technical skills attained in career pathways or academic skills such as math and reading.”

What do employers want? There are four major categories: Personal Ethic, Work Ethic, Teamwork, and Communication.

Let’s take a look at **Work Ethic**

a. Dependability

i. Shows up on time and ready to work

1. Fulfills obligations, completes assignments, and meets deadlines
2. Behaves consistently and predictably

ii. Regular Attendance

1. Demonstrates minimum absenteeism
2. Communicates absenteeism with direct supervisor

iii. Commitment

1. Desires to effectively work toward the employer’s goals
2. Takes the initiative in seeking new responsibilities, maintaining professional goals, and striving to exceed standards and expectations of their position

b. Professionalism

i. Maintains a professional demeanor at work

1. Demonstrates self-control by maintaining composure and keeping emotions in-check, even in difficult situations
2. Exhibits professional appearance by dressing appropriately for the workplace and maintaining personal hygiene
3. Understands employer’s objectives
